

# **Silent Z Plus Floor Underlay**

## ***3 in 1 Acoustic Underlayment***

Description:	Polyethylene High Density Foam with a Mylar foil overlay for Vapour Barrier
Thickness:	1/8" or 0.125" (3mm)
Density:	33 kg per cubic meter
Width:	41.5" (1.05M)
Box Size:	100 sq. ft. /box

Acoustical Values:	<b>IIC 75</b> (ASTM E492-09 / E989-06) <b>STC 72</b> (ASTM E90-09 / E413-04) Tested by Intertek
--------------------	---

### **Advantages:**

- Multifold format enables quick and easy installation, lays flat with no curling
- Packaging makes storage and handling more efficient
- High acoustic value optimizes impact sound reduction performance
- Silver vapour barrier protects against subfloor moisture migration
- Adhesive edge tape prevents moisture penetration
- Preprinted grid lines allows for easy and accurate cutting

*Lay it easily. Install it quickly. Enjoy it... quietly.*
